

Terms and Conditions – Fridge and Freezer Rebate

1. Rebates of \$100 for eligible fridges and freezers with a capacity less than 400L, or \$150 for eligible fridges and freezers with a capacity 400L and above, are available to eligible householders, businesses and other organisations under the Regional Energy Efficiency Program.
2. To apply for the Fridge and Freezer Rebate, you must complete in full and sign the application form and attach a copy of a receipt or invoice for the fridge or freezer, showing the full model name. You must also attach a copy of a local government rates notice or other form of identification (e.g. electricity bill) showing that you own or lease the property where the fridge or freezer is installed.
3. The fridge or freezer must have an energy rating of four (4) stars and above to be eligible for the rebate. You can check the energy rating of the fridge or freezer at www.energyrating.gov.au.
4. The rebate is only available to householders, eligible businesses and other organisations located within local government shires outside of the South West electricity grid as per the map shown on this form.
5. The rebate is not available to commercial mineral exploration or processing operations, including associated dedicated workers' accommodation.
6. Businesses and other organisations must have an Australian Business Number (ABN) to be eligible for the rebate.
7. The rebate is only available if the property where the fridge or freezer is installed is an approved, permanent building. It is not available for mobile dwellings, mobile businesses or other mobile facilities.
8. The rebate is limited to one (1) per residential dwelling and one (1) per commercial property.
9. The rebate is only available for fridges and freezers purchased after 7 December 2006 and before 30 June 2010, or until the funding available for the Regional Energy Efficiency Program is fully allocated.
10. The rebate must be claimed within six (6) months of the fridge or freezer being purchased.
11. All equipment, including installation, must meet relevant standards and regulations.
12. The Sustainable Energy Development Office will be the sole arbitrator in determining if the requirements of the rebate are met and the level of rebate that is applicable.
13. The Sustainable Energy Development Office reserves the right to change the terms and conditions of the rebate at any time.
14. The Sustainable Energy Development Office and the Australian Greenhouse Office accept no representations whatsoever for the performance of items for which the rebate is provided.
15. The Sustainable Energy Development Office reserves the right to publish information about the number of rebate applications approved and fridges and freezers installed as a result of the rebate. Any private or confidential information provided will be kept confidential.

FURTHER INFORMATION

For further details on the Fridge and Freezer Rebate, please contact the Energy Smart Line on 1300 658 158. The Energy Smart Line also provides advice on ways to save energy, including ways to maintain your new fridge or freezer. You can also visit the Sustainable Energy Development Office website at www.sedo.energy.wa.gov.au for further information.

For other information on ways to reduce greenhouse gas emissions, visit the Australian Greenhouse Office website at www.greenhouse.gov.au.

OTHER OFFERS AVAILABLE

Why not take advantage of the other offers available under the Regional Energy Efficiency Program, including rebates for energy efficient air conditioners, ceiling insulation and controllers of high energy-using equipment. There are also free energy-saving compact fluorescent lamps available. Call the Energy Smart Line on 1300 658 158 for more details.

The Regional Energy Efficiency Program is supported by the Australian Government through the Renewable Remote Power Generation Program. The program was developed and is administered by the WA Sustainable Energy Development Office.

ENERGY SMART REBATE FOR FRIDGES AND FREEZERS 4 STAR + ENERGY RATING

ENERGY SMART REBATE

Sustainable Energy
Development Office

Australian Government

Department of the Environment and Heritage
Australian Greenhouse Office

ABOUT THE FRIDGE AND FREEZER REBATE

The Fridge & Freezer Rebate is part of the Regional Energy Efficiency Program, which is aimed at reducing energy use in remote areas of Western Australia.

The rebate is available to eligible householders, businesses and other organisations located in shires outside the main electricity grid, as shown in the map below.

The rebate is restricted to these 'off-grid' areas as funding for the program is sourced from diesel fuel excise paid for public electricity generation in these locations.

The State and Australian Governments are working together to channel the funds back into the regions where the increased use of sustainable energy products and practices offers significant benefits.

HOW CAN I GET THE REBATE?

The rebate can be claimed on all fridges and freezers with a **4 STAR ENERGY RATING AND ABOVE**.

The level of rebate varies depending upon the size of the appliance:

- For fridges and freezers with a capacity less than 400L, the rebate is \$100
- For fridges and freezers with a capacity of 400L and above, the rebate is \$150.

See over for full terms and conditions.

WHY SAVE ENERGY?

Apart from the direct savings you'll receive when you claim the rebate, choosing an Energy Smart fridge or freezer will save you money over the longer term through reduced running costs.

Fridges and freezers with a 4 star energy rating and above use less energy and are cheaper to run than lower star rated models of a similar capacity or size. This means you'll save in running costs over the life of the fridge or freezer.

Saving energy also helps to reduce greenhouse gas emissions. Global warming has the potential to impact on all animals, plants and people living on the earth. By saving energy you'll help to protect the environment.

REBATE FORM – FRIDGES AND FREEZERS

Type of applicant *(please tick)*

Householder

Name _____

Telephone _____

Business or other organisation

Business Name _____

ABN _____

Contact Name _____

Telephone _____

Address

Property address where the fridge or freezer is installed

Postal address *(if different)*

Size of fridge or freezer purchased *(please tick)*

Less than 400L

400L and above

Applicant certification *(please tick)*

I have read and agree to the Terms and Conditions on this form

I have attached a copy of a receipt or invoice for the fridge or freezer, showing the full model name

I have attached a copy of a local government rates notice or other form of identification (e.g. electricity bill), showing that I own or lease the property where the fridge or freezer is installed

I confirm that the fridge or freezer has been installed at the address identified on this form

I agree to be contacted in the future for information about my energy use *(optional)*
